

SPO-360

High Performance Microwave Coax Cable

Product Description

Superlink SPO series is an optimized version of traditional semi-rigid cable. It offers a lower loss, less weight and wider temperature range due to it adopts advanced PTFE wrapped dielectric to replace the solid PTFE dielectric. Meanwhile it has superior shielding effectiveness and corrosion resistance. It is applied to interconnection between cards, satellite communication, feed network, etc.

Feature & Benefit

- LD PTFE Tape
- Ultra low loss,excellent size stable vs.temp
- Equivalent to CLL-50141
- Replace to UT-141-LL
